

Table with 2 columns: Time, Price. Includes 'D. & M. B. B.' and 'TIME TABLE AT LOGGOTEE'.

Our citizens who attend the Fair at Petersburg last week represent it as a grand success, and under the feeling inspired by it, propose to make an effort to organize an Agricultural Society in this county. A good thing.

Our fellow-citizens, Messrs. John Bretz, F. Lampert, John Troxler, John Gramelspacher and Ig. Eckert, all went to Cincinnati last Monday, to purchase goods in their different lines of business, and to visit the great Exposition, which is now in full blast.

Improvements.—We notice the walls of a new brick house nearly up, in the upper portion of town. It is a residence, and is being built by Mr. L. Kramer, and will be quite an addition to the appearance of that neighborhood.

In Jail.—Mr. Thomas Wipking and Henry Wipking, brothers, were put in jail in this town on Tuesday last. They are charged with stealing a young lady's underclothing. It is supposed he had a longing desire to examine how they were made. Henry wanted to time him while the examination was being made, and so he is supposed to have stolen a watch.

New Goods.—Mrs. Em. McConahay has arrived from Cincinnati with a stock of the prettiest millinery goods ever brought to Jasper. Her turbans, the ladies unite in saying, are lovely, while her assortment of other styles is good, and her ribbons and flowers such as will make "loves of bonnets." The Fall and Winter style of bonnet shows a little growth in size, which is commendable. Give her a call and look at them.

Mr. D. Braden.—This gentleman was in town this week drawing the pay for his county work. He was, also, we are informed, talking a little with our two radical citizens, to see if he couldn't influence the votes of those clever gentlemen for the nomination as a candidate for Clerk of the Supreme Court. Mr. Braden is as clever a gentleman as the Ballou party holds, and we are sure they will not get a better man for the office to which he aspires, in their ranks.

Parsley's Improved Condition Powders for

Sold by ECKERT & CO., Dealers in fresh & pure Drugs, Jasper, Ind. July 14.

Extra Special Notice. BEWARE OF COUNTERFEITS!

Smith's Tonic Syrup has been counterfeited, and the counterfeiters brought to grief. SMITH'S TONIC SYRUP. The genuine article must have Dr. John Bull's private Stamp on each bottle. In John Bull's only has the right to manufacture, and sell the original John Bull's Tonic Syrup, of Louisville, Kentucky. Examine well the label on each bottle. If my private stamp is not on each bottle do not purchase, or you will be deceived.

THE PATENTED SECRET. DR. JOHN BULL, Louisville, Kentucky, March 3, 1871.

BRITINGTON. Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line is acknowledged to be the C. B. & O. joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the BRITINGTON ROUTE.

Another branch of the B. & M. diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, and Illinois, Southern Iowa, and Missouri, and by a slight diversion, can see Nebraska also. Lovers of fine views should remember the Burlington Route, for its towns, high, gleaming from afar. Its trees-planted streams—its rough hills and quarries—its corn-fields—stretching over the prairie further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand home-steaders and pre-emptors who last year filed claims in the Lincoln land office, where Uncle Sam is rich enough to give us all a farm.

To Live Men in Dubois County. We are desirous of publishing a paper which will advance the interests of the county in every way, and to that end request your assistance. We want you to furnish us any items which you think will be of interest in your locality, any local events of interest happening we would be glad to hear of—also any discoveries of minerals, or other articles. Remember, we cannot be everywhere at the same time, and if you want a really good paper, you can help make it so, and at the same time bring your locality into public notice. Short communications are invited upon any subject, and for those who have not been accustomed to writing for the public, we will cheerfully correct any errors their manuscript may contain. Send along the items.

Mr. A. Habig is also getting the rock on the ground, for a brick residence, nearly opposite Mr. A. Hochgesang's, and which we are informed he intends completing yet this fall.

Unqualified for Beauty of Design! For Ease! For Neatly! For Certainty! VERY Superior to any other Sewing Machine. It is a mechanical contrivance of simple and perfect design, and is so constructed that it will sew any kind of fabric, and will do all the work of a Sewing Machine, and will do it better than any other Sewing Machine. It is a perfect work of art, and is so constructed that it will sew any kind of fabric, and will do all the work of a Sewing Machine, and will do it better than any other Sewing Machine.

Railroad Work Shop! New Stock and Better Tools for Farmers!

CHAMPION PLOW! This plow has been thoroughly tested the past season by some of the best farmers in Dubois county, and pronounced the best in use. It has also a large assortment of other plows, of many varieties.

Business, Military and Lecture COLLEGE. A New and Practical System of American Education. For circular and particulars address the proprietor, A. L. SORRELL, Ind.apolis, Ind. July 1, 1871.

HURRAH FOR THE RAILROAD!!

TO FARMERS. AGRICULTURAL WORKS AT S. KUEBLER'S, BLACKSMITH & WAGON MAKING SHOP

JASPER, INDIANA. To buy cheap, for money down, Done to Jasper, it's the town. Farmers, and all who want to buy, I'll sell you green-backs, and draw nails; For S. Kuebler has for sale The best Plows, wheelbarrows, and retail; Buggies, Carriages, silver bright, With farming implements all right. The best Hay, Flow, and butter mows— Come one and all, let us have a trade. Corn-crowes and cut-lathes new, Mowing machines and Reapers, too; Wagons, of all kinds, ready done. Hay rakes we're sure are No. one; With many other things all nice, We just come in, and stand the price! Then if you don't want to buy, There'll be no harm 'twixt you and I.

A few good jobs have been made, I confess, Whose success has depended on copying from me. But like the printer's borrow who makes— They fail to give credit, and yet call it just. With labor, skill, genius to superintend, New improvements I make, which the public commend; And when I've succeeded and got a good thing, The next thing I know it's on another machine!

DRY GOODS! CLOTHING NOTIONS, HARDWARE, QUEENSWARE, GROCERIES, HATS & CAPS. In fact a full and well assorted stock of all kinds of goods for the Spring and Summer trade. Highest market price paid for Bacon, Lard and all kinds of Country Produce. Wool taken in exchange for goods. Also for sale the Celebrated Buckeye Mowers and Reapers, Hay Rakes, &c., which will be sold at manufactory prices. Give me a call before purchasing elsewhere. H. DUFENDACH, Huntingburg, Ind. Cincinnati STORE.

DR. JOHN BULL'S, Great Remedies. CONCENTRATED EXTRACT OF BUCHU. Bromide of Potassium.

BUCHU IS A STIMULANT, and of itself may fall to effect a cure, but Buchu, when scientifically combined with Bromide of Potassium and other medicinal agents, produces a salutary effect, and causes a healthy action, thus increasing the powers of digestion, relieving irritation, reducing all unnatural swellings, stopping pain and inflammation, and causing the repair and nutrients; the human body to be greater than the wastes, thus preventing decomposition and decay, and giving nourishment, health and vigor to the system.

DR. JOHN BULL'S, Great Remedies. HENRY T. HELMBOLD'S COMPOUND FLUID. Extrat Cantawla GRAPE PILLS.

These Pills are the most delicately pleasant purgative, surpassing cathartics, oil, salts, magnesia, etc. They are acting more especially on the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the finest ingredients, and after a few days' use of them, such an invigorating and purifying effect takes place as to support the system to the work and enervated, whether arising from impurities or disease. If T. Helmbold's Compound Fluid Extract Cantawla Grape Pills are not supported from the first, the stomach will not digest, but pass through the stomach without absorbing, consequently do not produce the desired effect. T. Helmbold's Compound Fluid Extract Cantawla Grape Pills, being pleasant in taste and odor, do not excite their being sugar-coated. Price 25 cents per box.

DR. JOHN BULL'S, Great Remedies. BULL'S Worm Destroyer. EXTRACT OF A LETTER FROM GEORGIA. VILLASNO, WALKER CO., GA. June 25, 1871. Dear Sir: I have recently given you "Worm Destroyer" several trials, and find it would fully eradicate. It has not failed in a single instance to have the desired effect. I am doing a pretty large country practice, and have daily to keep the law with regard to the worms of the human system. I am, most respectfully, J. S. CLEMENT, M. D.

DR. JOHN BULL'S, Great Remedies. BULL'S SARSAPARILLA! In all their stages, at little expense, little or no charge in effect, no inconvenience, and no exposure. It causes a frequent desire and gives strength to the frame, thereby removing all the impurities of the system, and restoring the system to its normal state. It is particularly adapted to the treatment of the following diseases: Rheumatism, Gout, Gravel, Dropsy, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of the excretory system, and all the diseases of the reproductive system, and all the diseases of the generative system, and all the diseases of the urinary system, and all the diseases of the skin, and all the diseases of the blood, and all the diseases of the nervous system, and all the diseases of the digestive system, and all the diseases of the respiratory system, and all the diseases of the circulatory system, and all the diseases of
